For some children, home is not a safe place!

During the COVID-19 quarantine, many children were trapped at home with their abusers and no access to a Safe Adult. **Over 90% of abusers are someone the child knows, loves, and trusts.** As students return to school, they will need our programs more than ever and we need your help to make sure they receive it.

Proceeds from this tournament support MBF Prevention Education Programs, a series of comprehensive, evidence-based/evidence-informed, prevention programs that educate and empower children and teens with strategies to prevent, recognize, and respond appropriately to bullying, cyberbullying, online dangers, child abuse, and exploitation/trafficking. To date, MBF has trained more than 5,000 facilitators who have delivered *MBF Child Safety Matters*[®] and *MBF Teen Safety Matters*[®] lessons to more than 4.5 million students within 26 states, Washington D.C., and 3 countries. In the 2020-21 school year, MBF will reach even more students with the expansion of our new programs, *MBF Athlete Safety Matters*[®] and *MBF After-School Safety Matters*[™].

**Help us continue to educate and protect children by participating in our
Champions for Child Safety Pro Am Golf Tournament!**

MONIQUE BURR FOUNDATION FOR CHILDREN PREVENTION EDUCATION PROGRAMS

THE FOUNDATION

The Monique Burr Foundation for Children (MBF) is a nonprofit organization started by Edward E. Burr in 1997 on the one-year anniversary of the death of Monique Burr, his late wife, to continue her legacy of child protection and child advocacy.

Although our strategies may have changed over the years, our core mission has remained the same – protecting children through prevention education. Research shows that 95% of child sexual abuse is preventable through education, which is why we created the MBF Prevention Education Programs for children and youth.

Our elementary school, middle school, high school, programs for athletes, and after school programs educate and empower students and all relevant adults with information and strategies to prevent, recognize, and respond appropriately to bullying, cyberbullying, digital dangers, the four types of child abuse (physical, emotional, sexual, and neglect), and exploitation/trafficking.

To date, MBF has trained more than 5,000 facilitators who have delivered *MBF Child Safety Matters*® and *MBF Teen Safety Matters*® lessons to more than 4.5 million students within 26 states, Washington D.C., and 3 countries. In the 2020-21 school year, MBF will reach even more students with the expansion of our new programs, *MBF Athlete Safety Matters*® and *MBF After-School Safety Matters*™.
